## Editor's Message

I am filled with immense pride and optimism for the future. Our ITE College has always been more than just an institution, it is a vibrant community where the foundations of education are built and future educators are nurtured. In our classrooms, we do not merely teach, we inspire, challenge, and prepare our students to be the torchbearers of knowledge, wisdom, and values. The role of a teacher has evolved significantly in recent years. The rapid shift to online learning and the integration of digital tools into education have transformed the traditional classroom setting. This new era requires educators who are not only knowledgeable but also adept at using technology to enhance learning experiences. At our college, we have embraced this change by incorporating the latest teaching methods into our curriculum, ensuring that our future teachers are well-equipped to meet the demands of a rapidly changing educational landscape. We are committed to preparing our students to engage this generation.
